

UNIVERGE BLUE® CONNECT

Integrated Intelligent Communications
Transform How YOUR Business Works

UNIVERGE BLUE CONNECT BUSINESS COMMUNICATIONS PLATFORM

Bring your teams and customers together on one of the most inclusive integrated intelligent business communications platforms and adopt digital workplace strategies to create environments that maximize employee productivity, well-being, and safety. Equally important is ensuring a safe, productive work environment that is good for your business and great for people.

Experience the power of UNIVERGE BLUE CONNECT, an easy-to-use cloud-based intelligent communications platform, to help your employees to be more productive and collaborative. Our platform includes:

- › **A full-featured phone system** combined with chat, web/video conferencing, basic contact center functionality, and file sync, share, and backup capabilities delivered through intuitive desktop and mobile apps.
- › **Built-in rolling 30-day archiving** to capture and preserve your chat, SMS, meetings, and voice data to allow you to search and retrieve critical communications. Optional longer retention plans available.
- › **A built in AI Assistant** to help your team with daily tasks like for writing content, calculating a formula, translating text, and much more.

Lower operating expenses by eliminating the need for expensive equipment and the technical experts needed to install, maintain, and repair it. Get feature-rich phone service for a low monthly cost.

To further enhance how your business works, add UNIVERGE BLUE ENGAGE, an advanced multi-channel contact center, that is fully integrated within CONNECT to improve customer experience.

SAY GOODBYE TO COMMUNICATION BARRIERS, AND HELLO TO UNIVERGE BLUE CONNECT

INTEGRATED INTELLIGENT COMMUNICATIONS AND COLLABORATION PLATFORM HIGHLIGHTS

CLOUD-BASED PHONE SYSTEM

UNIVERGE BLUE CONNECT is a full-featured cloud phone system combined with high-definition (HD) audio and many other features.

- › Seamless inbound/outbound calling via desktop phone and desktop and mobile clients
- › 100+ enterprise-grade advanced calling features such as call park, call forwarding, 3-way calling, and a conference bridge
- › Purpose-built for reliability with 99.999% financially backed uptime Service Level Agreement (SLA)
- › System configuration and call reporting are managed from a single web-based portal
- › Built-in Spam Caller Protection protects your business and increases employee productivity

PRESENCE

UNIVERGE BLUE DESKTOP PHONES and applications include real-time presence - the ability to see whether a colleague is currently available, or busy on the phone.

- › Desktop phones include a busy lamp field (BLF) in the LCD display that indicates presence
- › The UC desktop and mobile apps display presence information alongside each contact in the Active Directory

UNIVERGE BLUE CONNECT DESKTOP AND MOBILE APPS

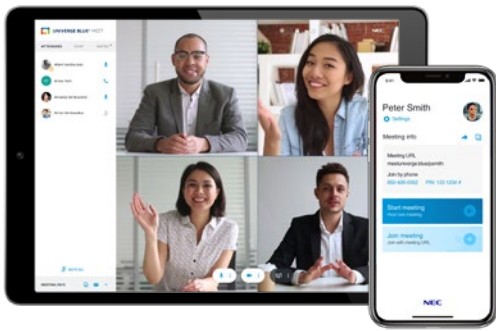

Our desktop and mobile apps transform your devices into powerful communication tools, making teamwork easier than ever.

- › See who is available, send team chats, SMS, and text messages, place and receive calls, share screens, start video calls, and share files - all from one application
- › Available as a downloadable app for PC or Mac® and Android™ and Apple® iOS devices
- › Accessibility from wherever, whenever

VOICEMAIL

With **UNIVERGE BLUE CONNECT**, you no longer need to be by your business phone to listen to and access your voicemail.

- › Voicemail can be managed and accessed according to user needs - listen and manage from the desktop phone, or through the desktop and mobile apps
- › Transcribed voicemail messages can be delivered via email, or viewed on the desktop or mobile apps
- › Voicemail can be received or forwarded as a downloadable email attachment

VIDEO CONFERENCING & SCREEN SHARING

UNIVERGE BLUE MEET is a built-in, easy-to-use, reliable video collaboration tool.

- Meet face-to-face in HD video and share your screen for more interactive and productive collaboration with colleagues and customers from anywhere - Includes a conference dial-in number and custom URLs for meetings
- Screen annotation allow participants during the meeting to call out important points on a shared screen
- Emojis allow attendees to react to content being presented and keeps the meeting more interactive
- Access to advanced features like automatic meeting lock, virtual backgrounds, meeting transcriptions, plus more
- Web participants per plan: ESSENTIALS up to 4; PRO up to 100 and PRO PLUS up to 200
- Video panel participants: ESSENTIALS up to 4; PRO & PRO PLUS up to 100

CHAT AND BUSINESS SMS MESSAGING

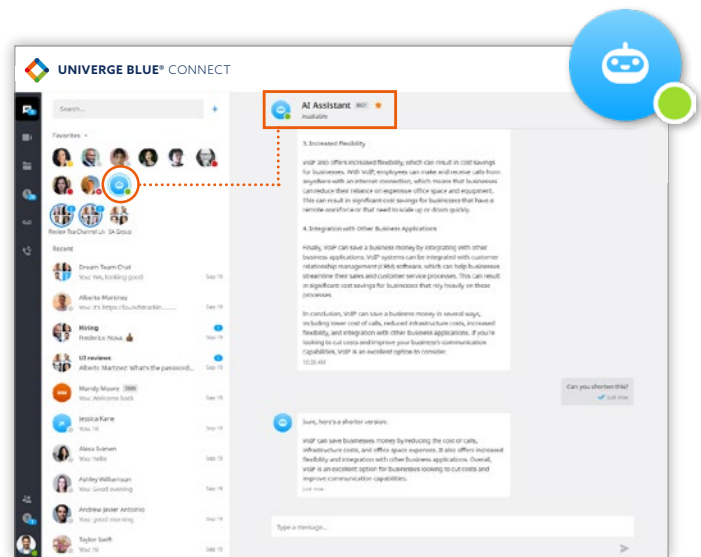

UNIVERGE BLUE CONNECT's built-in messaging tool enables users to quickly chat with colleagues making teamwork and communications stress-free and easier than ever.

- Use direct chat to communicate with an individual colleague and private and public channels to discuss specific topics in groups - have conversations, share files, and more in real-time
- Send and receive unlimited text messages across US, Canada, and Puerto Rico
- View free/busy/away statuses of all your contacts and pin favorites to the top of your list
- Access advanced collaboration features like @mentions, search in chat, replies, rich text editor, and more
- All messages automatically synch across desktop and mobile apps, and are securely encrypted in transit and at rest

AI ASSISTANT

A Generative Artificial Intelligence (AI) business productivity tool built directly into **UNIVERGE BLUE CONNECT Desktop and Mobile apps** - easily accessible through Chat and can be pinned in favorites, just like other contacts.

- Can be used for writing content, answering common questions, calculating a formula, writing code, translating text, summarizing information, and much more
- Helps employees access information more easily and can assist with repetitive or time-consuming tasks
- Designed so your data is not used for training any AI models and proactively keeps user data private

UNIVERGE BLUE ARCHIVE FOR CONNECT

Built-in 30-day rolling retention archiving automatically captures and preserves chat, SMS, meetings, and voice data to allow you to search and retrieve critical business communications. Optional longer retention plans available.

- Powerful contextual search indexes both content and metadata so users can access millions of files and refine searches using dozens of properties for results in seconds
- Easily access information for dispute resolutions
- Leverage historic information for training and coaching, plus knowledge management
- Enable compliance and satisfy regulatory requirements
- Support litigation, investigations or eDiscovery needs

FILE SHARING/SYNC/BACKUP

UNIVERGE BLUE SHARE is integrated within CONNECT desktop and mobile apps allows colleagues to work seamlessly on projects together and co-edit documents in real-time.

- › Access the most current version of files from any device – desktops, laptops, smartphones, tablets, file servers, and the web
- › Full control over all functions including file management, users, devices, and sharing activities
- › Real-time backup of all files, mobile photos, and videos
- › Point-in-time file restoration for quick recovery from ransomware and other types of data loss
- › Reduced downtime from ransomware and other types of data loss
- › CONNECT packages include 5GB/user (pooled) for ESSENTIALS, 50GB/user (pooled) for PRO, and 200GB/user (pooled) for PRO PLUS

CONFERENCE ROOMS

UNIVERGE BLUE CONNECT ROOMS is a video conferencing room solution that brings all the benefits of CONNECT MEET into any conference room allowing remote and in-office employees to be seen, heard, collaborate, and fully participate in their work meeting no matter their location.

CALL CENTER (VOICE ONLY)

Basic call center functionality is included with **UNIVERGE BLUE CONNECT PRO and PRO PLUS** packages.

- › Provides supervisor monitoring ability, scheduled reports, extended storage, a real-time dashboard, smart greetings to announce to callers their number in queue along with estimated wait time, and much more
- › Routes calls to different departments such as sales, customer service, or technical support
- › Choose how calls will be distributed across agents with ringing order such as round-robin, sequential, longest idle or ring-all at once
- › Specify the agent wrap time or the number of seconds after an agent ends a phone call before the system routes the next incoming call to their phone

FAX

UNIVERGE BLUE CONNECT WEBFAX provides virtual, paper-free fax coordination, allowing you to receive, manage, and send your faxes via the web from anywhere, anytime. Provides PDF of incoming faxes via email and enables you to send faxes through an easy-to-use PC application.

UNIVERGE BLUE CONNECT ENHANCEMENT ADD-ONS

CONTACT CENTER

UNIVERGE BLUE ENGAGE is a highly customizable intelligent multi-channel contact center that seamlessly integrates with CONNECT.

- › A highly reliable, secure, and full-featured customer experience solution that can be up and running in days, not months
- › One seamless cloud solution with a single user interface – merging User Experience (UX) efficiency with Customer Experience (CX) enablement
- › Effortlessly give CONNECT users access to call queues without needing to onboard them to a different application providing greater flexibility
- › Take advantage of ENGAGE's AI features like transcription analysis, AI sentiment analysis, AI interaction summary, and workflow automation, powered by UNIVERGE BLUE PULSE™, to further enhance overall customer experience
- › Unified presence and collaboration let others see when users are handling customer calls - enables frontline users to see who's available to chat, talk, and meet while on call

WEBINAR

UNIVERGE BLUE MEET WEBINAR is a complete turnkey solution to help you reach and engage more people to help grow your business.

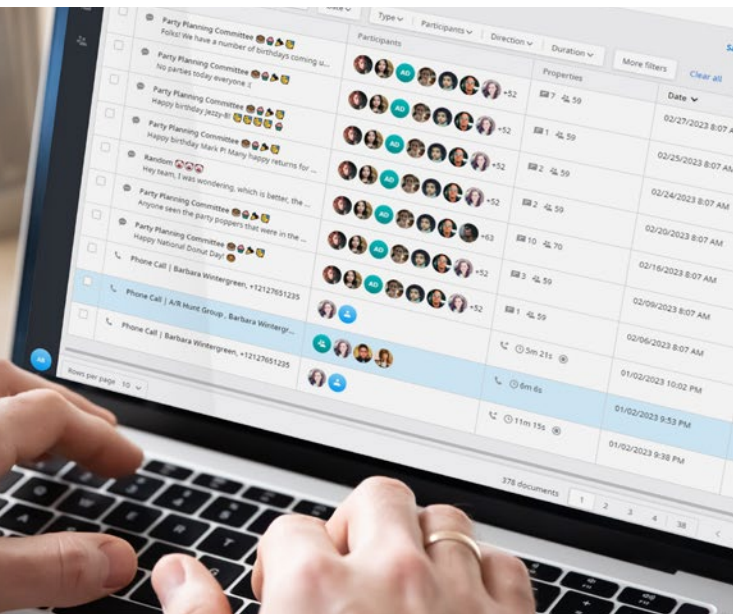

- › Promote your webinars with custom invitations, registration pages, and email reminders – all included in one complete webinar solution
- › Host webinars using slides or screen-sharing with up to 12 HD video presenters and up to 1,000 attendees
- › Launch quick polls, share results in real-time and gauge audience reactions to your content with emojis
- › Generate detailed reports, follow up with emails, survey and quizzes to push attendees down the purchasing funnel
- › Integrate with 1,000+ business apps via Zapier to track your leads, registrations and more

**UNIVERGE BLUE®
ENGAGE**

PRESERVE, SEARCH, AND RETRIEVE YOUR ESSENTIAL COMMUNICATIONS

ARCHIVING

UNIVERGE BLUE ARCHIVE for CONNECT and ENGAGE

securely captures your organization's UNIVERGE BLUE CONNECT and ENGAGE critical business communications and ensures the information is preserved in one place and is easy to find whenever it's needed.

UNIVERGE BLUE ARCHIVE for CONNECT automatically captures calls, chats, meetings, and SMS conversations.

UNIVERGE BLUE ARCHIVE for ENGAGE automatically captures phone calls, chats, SMS, emails, screen recordings, and more.

- Designed for CONNECT and ENGAGE - deploys in minutes with everything needed to enable compliant retention
- Powerful, contextual search to quickly find conversations when you need them - search on text, chat names, participants, call duration, source, attachments, and many more attributes
- Facilitates compliance with internal governance and regulatory requirements for retention, retrieval, and security
- Data is encrypted at rest and in transit, and multifactor authentication protects data from access by unauthorized users
- Rolling 30-day archiving is included for free
- Choose to store data for as long as the business case requires - with retention options ranging up to ten years

COMPANY MESSAGING

UNIVERGE BLUE CONNECT Company Messaging

enhances customer interaction by enabling the ability to send and receive rich text (SMS) and picture messages (MMS) to and from your main company or toll-free phone number.

- Send customers instant, customized responses directly from subject matter experts
- Provide effective communication by assigning labels (like Sales or Support) to phone numbers for clearer outbound communication
- Instantaneously respond to customer messages from anywhere using the seamless integration of the CONNECT mobile and desktop apps

TOLL-FREE CALLING

A **UNIVERGE BLUE CONNECT** toll-free number makes your business more accessible to customers regardless of their location. It can help improve customer satisfaction, as customers are more likely to call or text a business if they know they can do so without incurring any additional cost.

- Multiple toll-free numbers can share the same bucket of minutes
- In-bucket minutes for calls to/from US and Canada (including Alaska and Hawaii) AND any overage minutes are the same consistent rate, so you have a more predictable bill
- After the first 18 seconds, calls are metered at 6-second increments instead of rounding up to a full minute of usage, making your buckets last longer

UNIVERGE BLUE EXTEND INTEGRATIONS PLATFORM

UNIVERGE BLUE EXTEND is an integrations platform that connects powerful voice, chat, video conferencing, and contact center functionalities into everyday business applications like Google®, Microsoft®, Salesforce®, and more – driving higher productivity and increasing customer retention at no heavy cost.

meet your specific needs and deliver key benefits for your business:

Increase Productivity – Improve employee and customer experiences by enabling communication capabilities in everyday business apps.

Better Customer Experience – Access relevant customer data at the right time to deliver a more personalized experience.

Access Critical Data – Add employee calling and communication data to your business reporting tool(s).

The UNIVERGE BLUE EXTEND API platform allows you to integrate the features of our voice, video, contact center, and analytics services into business applications (CRMs, ERPs, Ticketing Systems, etc.). Developers can leverage our CONNECT and ENGAGE APIs to build custom solutions to
